

MAKASI

Bio

From Antwerp to the world's most iconic stages, Makasi is a DJ and producer blending Afrohouse, Organic-, and Melodic House into immersive musical journeys. A passionate traveler and cultural explorer, he draws from global experiences and his Congolese roots to craft sets that captivate and connect audiences worldwide.

Makasi's love for music started early, crafting mixtapes with a tape recorder at just eight years old. This passion evolved into a professional journey, beginning with spinning vinyl—a foundation that sharpened his authentic sound and technical mastery.

His dynamic sets, characterized by unexpected transitions and creative rhythms, quickly earned him recognition in Belgium's club scene and launched him onto Europe's stages in cities like Amsterdam, Paris, Barcelona and Ibiza. Globally, Makasi has performed across five continents, from New York to Tokyo, gracing prestigious events like NYC and Milan Fashion Week, Sunburn, Ultra Music Festival, and Tomorrowland, where he's been a regular for 13 consecutive years.

More than a DJ, Makasi is a storyteller and performer who merges organic textures with electronic elements, constantly pushing boundaries. His sets are transformative experiences that leave audiences in awe and longing for more.

In 2025, Makasi channels his creative energy into productions that delve into the rich textures of Afrohouse and the ethereal landscapes of Organic and Melodic House. Stay tuned for his next evolution, bringing soulful, genre-defying tracks to the forefront.
